

The Ohio Academy of Nutrition and Dietetics 102nd Annual Conference in Columbus, Ohio is tentatively scheduled for April 14, 2023!

We are seeking proposals from speakers for educational sessions for this year's Annual Conference. Along with education sessions, this event will provide mainstays of the OAND Conference experience: exposure to nutrition and dietetics related products and services, awards and recognition for members from various practice areas, special sessions for students, and networking—all essential for advancing careers. All of this will be provided in a safe and engaging environment that participants can plan to attend no matter what the public health situation brings in 2023. We are striving to achieve a higher level of engagement and interaction between speakers and the audience at this year's conference and therefore are seeking proposals for educational sessions focused on practical application of research and insight into emerging research and trends that will capture the broad interests of RDNs, NDTRs, and dietetics students in Ohio and beyond.

Please review this Speaker RFP before completing the online form (Survey Monkey).

Speaker RFP Overview

Proposals for educational sessions that focus upon this year's theme, *"Feeding our Future: Community, Connection, Compassion,"* will be given priority consideration. This theme recognizes that we are an evidence-based profession, that provides individualized care to all we serve. This theme should be reflected in all proposals. Please submit one proposal on behalf of all speakers/panelists included in one session. Indicate all relevant information for all included participants.

If you are a polished speaker with new research-based content to share with our attendees—who has not presented at our conference the past two years—please consider submitting a proposal. All proposals must be submitted online through the submission portal, and must be received by 5:00 p.m. on Monday, October 3, 2022. ***No e-mailed proposals will be accepted.***

Please review the detailed guidelines on the following pages before submitting your proposal.

Presentation Style and Format

- We anticipate that most sessions will have a lecture component, and will consider variations in the length of the lecture portion and audience engagement strategies. Some format ideas include but are not limited to, lecture plus panel discussion with other professionals involved in the treatment or intervention, group workshop format, culinary lecture and demonstration, etc.
- Each session will run 60 minutes—for those following a traditional lecture format it is critical you leave at least 15 minutes for moderated Q&A.
- Speakers will be asked to present in-person, with the commitment that this could change to a virtual presentation obligation if public health conditions change. If conditions change and you are asked to present virtually, you may be asked to record your session ahead of time but be available for Q&A.

General Guidelines

- All proposals must be submitted online.
- Proposals are due by **5:00 pm on Monday, October 3, 2022.**
- Late and/or Incomplete proposals will not be considered.
- Sponsored speakers/sessions will be considered; be sure to indicate how your content will be educational and not commercial and meet the theme of the Conference.
- If the speaker is not sponsored, the Ohio Academy offers the following standard speaker package, however, we reserve the right to negotiate compensation when there are multiple panel members with different levels of responsibility to the presentation:
 - Complimentary conference registration
 - Honorarium of \$200
 - Travel up to \$300 with receipts

Evaluation Criteria

Proposals will be reviewed and scored by members of the Conference Committee based on the following criteria:

- **Quality:** What is the overall quality of the proposal? Is it grounded in science? How clear is the writing?
- **Relevance:** Is the topic timely? Does the proposal address a cutting-edge concern for dietetics practitioners? Does it speak to all nutrition professionals (i.e. RDNs, NDTRs, etc.)?
- **Originality:** Does the proposal provide an innovative perspective or a unique approach to the topic?
- **Speaker:** Is the speaker a recognized expert in this topic area based on years of experience, research, or education? Will the speaker use a dynamic presentation style to engage the audience?

Proposal Requirements

Proposals must be submitted using the Survey Monkey online proposal submission form. A complete proposal must include all of the following components, which are fields you will fill out when you complete the online form:

- Session Title
- Session Abstract
 - 75 words or less, to be used for marketing purposes. This should entice the audience to choose your session.
- Learning Objectives (list 3)
 - After attending this session, the participant will be able to...
- Performance Indicators (list 3)
 - Options: https://admin.cdrnet.org/vault/2459/web/New_CDR_Competencies_2021.pdf

- CPE Level (Note: priority will be given for presentations that are Level 2 or 3)
 - 1: Assumes that the participant has little or no prior knowledge of the area(s) covered.
 - 2: Assumes that the participant has general knowledge of the literature and professional practice within the area(s) covered.
 - 3: Assumes that the participant has thorough knowledge of the literature and professional practice within the area(s) covered.
- Session Format
 - Lecture, panel discussion, group workshop, culinary demonstration, etc.
- Primary Session Focus (select one)
 - Clinical nutrition, community nutrition, culinary skills, counseling, entrepreneurship, professional development, diversity/equity/inclusion
